

Sabaragamuwa University Journal

Volume 14 Number 2 December 2015

Editorial

Good Bye,

My personal, “Multidisciplinary Research” adventure, which began in 2007, when I took over as coordinating editor of the SUSL journal, has now come to its natural conclusion and the time has come to pass the baton to our new editor in chief, Dr. Aruna Shantha, a colleague and enthusiastic academic. It was the wish of Prof. Dayananda Somasundara, former vice chancellor and founder of the SUSL journal and all later vice chancellors to give scientific direction, guidance and courage. Journal stands today on the strong foundation they laid and an enthusiasm and hard work of the editorial staff.

I wish to take this opportunity to express my sincere thanks and great appreciation to Mr. Prasad C. Iddamalgoda, for his valuable contribution in designing the volumes, Printing companies for their cooperation on quality production of the journal, Sri Lanka Journals Online (SLJOL), National Science Foundation and especially Ms. Sioux Cumming for her excellent support on entire journal editing, production and dissemination process. This is my final touches on SUSL journal and with this issue, then my editorship comes to an end. My dream, the SUSL journal will fly high strides and wish all the very best for better tomorrow.

Prof. (Mrs.) D. A. M. De Silva.
